

JONATHAN HUSTEAD

Staff Software Engineer

Jacksonville, FL • jonathanhustead.com

PROFESSIONAL SUMMARY

Accomplished Staff Software Engineer with over 15 years of experience architecting high-performance frontend solutions, driving UI/UX strategy, and establishing robust enterprise design patterns. Proven expertise in leading cross-functional teams, rapid prototyping, and modernizing complex systems utilizing .NET Core, micro-frontends, and modern component frameworks.

PROFESSIONAL EXPERIENCE

Staff Software Engineer

Aug 2018 – Present

SS&C Advent • Jacksonville, FL

- Oversee enterprise UI/UX architectural design elements, collaborating closely with development and design teams to implement unified templates and scalable design patterns.
- Architect and implement robust frontend layouts using .NET, .NET Core, MVC, AngularJS, jQuery, and Kendo UI.
- Drive rapid prototyping initiatives with stakeholders to validate system functionality before seamlessly integrating backend APIs.
- Advance modern architectural shifts focusing on .NET Core 10, micro-frontend structures, and modern web frameworks to ensure long-term scalability.

Web Marketing Manager

June 2016 – June 2018

Optimum Healthcare IT • Jacksonville, FL

- Partnered with the Creative Director to deliver high-quality design and development for both internal corporate and external marketing web platforms.
- Built, optimized, and maintained responsive custom web applications using PHP, WordPress, jQuery, HTML5, and CSS3.

Senior UI Engineer

June 2015 – June 2016

Clearsense • Jacksonville, FL

- Accelerated early-stage growth for a dynamic tech startup by architecting core UI/UX frameworks from the ground up.
- Created functional, high-fidelity interactive prototypes using AngularJS, .NET MVC, and jQuery to present key proof-of-concepts to executive stakeholders.

Lead Front-End Developer

May 2010 – June 2015

Fanatics • Jacksonville, FL

- Collaborated cross-functionally with IT, design, SEO, and marketing business units to establish modern front-end layouts and technical design requirements.
- Engineered highly optimized, responsive prototype pages and styles that established coherent branding systems across hundreds of high-volume sports e-commerce storefronts.
